

Methodist Church in the Isle of Man

An action for Climate Sunday 2021:

to provide a book on climate change for young people
across the Island's primary and secondary schools

Contents

- Chapter 1: The basics
- Chapter 2: How sure are we?
- Chapter 3: What do we do?
- Chapter 4: What's stopping us
- Chapter 5: What can I do?

Children and young people are concerned and troubled about climate change. This is an issue that is likely to be with them for the rest of their lives. They need to understand what is going wrong and how it can be solved. They also need reassurance.

This excellent book from the Usborne 'For Beginners' series is aimed at 10 - 14 year olds and offers a clear guide to a huge topic.

Climate Crisis for Beginners (Hardback - 128 pages)

"This is not a faith-based book - but it is a book about stewardship. I believe it is a book that needs to be in every school library across the Island. With vivid illustrations, it explains the basics of climate change using a sensitive and sensible approach that will not overwhelm young readers. It covers how we affect the climate and how climate change affects us. Perhaps more importantly, it also provides support for young people to deal with feelings of worry, sadness and anger. It really is an excellent resource." Paul Craine

Would you be willing to give £10 to cover the cost one book, including postage, to one of the Island's schools? If we can find 50 Methodists willing to give £10 each we can supply one book to every primary school and multiple copies to the secondary schools. This will make the book available to children and young people right across the Island. The Lexicon bookshop in Douglas has kindly offered to supply the books at a discounted price. If you would like to support this action, please forward a £10 donation to Paul Craine, 6 Elm Bank, Glen Vine, IM4 4FF. Thank you.

Usborne Books: The Climate Crisis is real. Climate Change is having an enormous impact on the world around us. This book uses simple language and vivid illustrations to explain complex questions clearly. How does the climate work? What are we doing to change it? What can we do differently to avoid the worst outcomes? Why do we all find change so hard? The Climate Crisis is a troubling and sensitive topic, especially for children, so the book includes vital tips on how to set realistic goals and not get overwhelmed by bad news.
