

Methodist Church in the Isle of Man

An action for Climate Sunday 2021:

**to provide a book on climate change for young people
across the Island's primary and secondary schools**

Many thanks to everyone who contributed to the purchase of 50 copies of this excellent Urborne book. We raised the £500 required within three weeks of launching the appeal. The books have been provided at discount by the Lexicon Bookshop and have been posted out to all of the Island's primary and secondary schools with a stamp inside the front cover simply saying: "Donated to the school library by the Methodist Church in the Isle of Man".

Many thanks again for your support.
Paul Craine
