

Isle of Man Friends of the Earth

COP26 CLIMATE CONFERENCE

MARCH

Saturday 6 November

2.00pm

Meet at Sea Terminal

from 1.30pm

Isle of Man Friends of the Earth will hold a march through Douglas which they hope will be well supported. They will meet from 1.30pm at the Sea Terminal then make their way to Duke Street to form an organized column. They're hoping that they may be joined by the wonderful Sambamann to lead them off at 2pm, through Strand Street and Castle Street, then across the prom to gather at the War Memorial, finishing with short addresses from a couple of well-known people.

Please be colourful and bring visuals you can carry, such as banners of local organisations and placards with climate messages. They have obtained the necessary consents from the Police, Douglas Town Centre Management, and the DoI for them to use the Sea terminal as a starting point. The only request is that everyone is respectful of other people in the shopping areas and do not take up the whole width of the street.

Please share this widely. Show our leaders we care and we are watching.
