TRK ARURR - SULBY METHODIST CHURCH

**Sulby Methodist Church
District Advance Fund Application**

1. To update sound equipment to a modern standard – digital microphones and electronic mixing.

3. In connection with the **church building modernization project**, an application for funding has been made to:

Elizabeth Clucas Trust

AFD Software

Subject to planning permission being granted, applications will be made to:

IOM CMTF

All Churches Trust (Methodist Insurance)

Garfield Weston

Kelly Trust

The updating of the sound equipment is needed regardless of the modernization of the building.

6. Current equipment is many years old. The radio microphones are down from four to two. Two have failed. The only stand microphone is on a cable. We need a system that allows each channel to be separately controlled by the channel user or by a master control. To enable the controller to be anywhere in the church. To make the equipment easily accessible for maintenance. To be expandable so that larger groups can use the sound system.

- 9 ~~10~~ a) ease of use and lack of interference
b) increased range
c) improved audio

Confusion re number relates to previous incorrect form. Hence, resubmission

- 10 ~~11~~ The equipment for which the funding is requested is the core requirements for a new system. As the church is improved this will be capable of having more channels added.
